ANOTHER LIQUOR CASE

Man From Arizona Who Had Defrauded Boarding Housekeeper Had Unlawful Quantity of Spirits.

Sergeant Scott and Officer Kerns were called upon this morning to arrest a man who gave his name as John D. Turk, who said he came from Arizona, on a charge of disorderly conduct and the use of insulting language towards Mrs. Fannie Cook, who conducts a boarding house in this city in conjunction with a cookshop in market. Turk had been requested by Mrs. Cook to pay his board bill, contracted some time ago, when he became abusive and used harsh language towards his former hostess.

He was brought to the station house where it was found that he carried a quart bottle of whisky and a bottle half filled with gin. He was held for the action of the grand jury, and after the Corporation Court shall have disposed of his case he will be arrested on the charge of defrauding a boarding house. Should he fail to pay for his entertainment, he will be subject to a fine of fifty dollars or made to serve three months in jail. This was the only case before the Police Court this morning.

Complaint has recently been made to the authorities of the dishonest procedures upon the part of certain strangers who have come to Alexandria recently. In most cases they have "skipped" without settling with their hosts or hostesses and in other instances it is alleged they contracted debts for clothing, etc.

The Gazette has several times called attention to the penalty of the law in such cases, and the authorities are determined if such delinquents are caught it will be put up to them either to pay their debts or serve the maximum term in jail.

NEW ALIEN ENEMY SUSPECT.

Willy Edelstein, of Alexandria, Held in Washington Pending Investigation.

Willy Edelstein, alleged to be an expert photographer and an alien enemy, was taken into custody yesterday in Washington by United States Marshal Maurice Splain pending an investigation into his real status.

Edelstein says he lives in Alexandria, and goes to the District of Columbia every day to his place of employment, the Potomac Electric Power Company.

When taken before Attorney Arth, Edelstein made many confusing statements. At first he claimed that he was a German and was about to receive his final naturalization papers.

Later he stated that this was a mistake. He then claimed to be a Russian Jew. Among his effects, Mr. Arth found a discharge paper from the German Landstrum, or infantry. The authorities will hold him until they can straighten out the tangle themselves.

CAVE-IN KILLS MINERS.

Four Believed to be Lost in Unusual Accident Near Pittston, Pa., Twenty-Three Hurt.

Wilkes-Barre, Pa., Jan. 5.—The lives of four miners are believed to have been lost in an unusual accident today in the Barnum mine of the Pennsylvania Coal Company near Pittston. There were about one hundred men and boys at work when the middle vein, known as the Martz vein, collapsed. The passageway was not entirely filled and all but four of the workmen were rescued. Twenty-three of them were slightly hurt.

The accident was due to the fact that two gangs of men robbing pillars in different veins were working toward one another. They came too close together, and suddenly there was a great rush of coal and rock as the roof of the vein caved in. About 500 yards of material came down.

The cave-in is one of the greatest since the disaster in the Twin shaft nearby, in which scores of men were entombed and never rescued.

Local Exemption Board Moves.

Owing to the cold weather and the fact that the council chamber was so large it could not be properly heated the local exemption board today moved to new quarters on the second floor of the postoffice building.

THE RECLAIMED COVE

Senator Martin Introduces a Bill to Validate the United States Option Upon the Property.

The Groton Iron Works, which recently leased the reclaimed ground in front of what was during the civil war known as Battery Rodgers will in the near future make preliminary preparations for utilizing the forty-seven acres reclaimed in the summer of 1911.

James R. Caton today paid to Gardner L. Boothe the amount due Agnew and Harlow for their interest in the reclaimed ground, and the deed to the same has been placed on record in the clerk's office of the Corporation Court.

A bill to give validity to an option for the purchase of the tract of reclaimed land in Battery Cove, Alexandria, made by Secretary of War Baker and the Groton Iron Works, was introduced in the Senate yesterday by Senator Martin.

The bill cites the tentative option entered into between Mr. Baker for the United States, and Stuart G. Gibboney, Charles W. Morse and the Groton Iron Works, and provides for a five-year lease of the property in question, which includes all told about 47 acres, at $4,200 a year. The title of the United States to part of the land is contested. The bill provides that in the event the contest is ultimately decided in favor of the United States, the Groton Iron Works may purchase the entire tract for $70,000.

A Great Production.

When "The Whip" comes to the Richmond Theatre tonight the people of this city will have the opportunity of seeing the greatest motion picture in the world. Staged on a gigantic scale and telling the story that charmed and thrilled millions of people when it was presented on the speaking stage, "The Whip," is the masterpiece of the silent drama. It marks an epoch in motion pictures and no one should miss it.

It is impossible to expatiate too extensively upon the thrills and intensity of this picture. Money has been spent with a lavish hand in securing the biggest, most thrilling scenes possible for this tremendous feature. Twenty-five thousand dollars was spent for a train wreck for just one of the many big scenes. Its appearance in this city is a real event. Be sure to see it.

One Standard of Pay.

Miss Jeannette Rankin, member of Congress from Montana, would have women paid the same standard of wages as men during the war period.

She has introduced in the House a resolution which would authorize the President to require all employers of labor during the war to pay women workers the same wages as are paid to men. At the same time, Miss Rankin introduced a bill to equalize the wages of men and women who perform similar labor for the Government.

Alexandria City and Suburbs

The Circuit Court for the city, Judge J. B. T. Thornton, will convene at eleven o'clock Monday morning.

But few sellers or buyers attended the market this morning. Prices showed no material changes from those of the past few weeks.

Owing to the scarcity of coal the Second Baptist Church has decided to discontinue the Wednesday night prayer meetings at that church and to hold them in the homes of the members.

William E. Candler has sold to Ida G. Moncure a house and lot on the west side of Patrick street, between Duke and Wolfe. Thomas M. Watson has sold to William Pollard a house and lot on the west side of Columbus street, between Gibbon and Franklin. Armistead I. Ross has sold to William J. Angel house and lot 1808 Duke street.

Brannan, Dorothy Day, Lucy Burns, Emily Butterworth, Julia Emory, Dora Lewis and Alice Carfu. There are also three condemnation cases in which property located at Leesburg, Occoquan and Fairfax county is concerned. There are six criminal actions on the docket in which the United States appears as plaintiff against William C. Dashiell, W. C. Gallaher, Lankward McHenry and others, Lumb Westbrook, Henry Craft and James Johnson. Court will convene at 10:30 Monday morning.

PASSING OF THE COLD WAVE.

Frost King Makes His Exit for Parts Unknown.

The mercury in the thermometer stood at 20 degrees above zero early this morning, in marked contrast to the record yesterday, when in some places it was hovering about the zero mark. The forecast today was: "Cloudy, probably snow late tonight and tomorrow."

The recent cold snap has caused not only distress to many, but great inconveniences to hundreds, in the way of frozen water pipes, and the plumbers are overburdened with calls. In some cases pipes which had frozen have burst and flooded kitchens and bath rooms.

Much delay is occasioned in bringing water to bear upon fires, as virtually all the fire hydrants have been frozen during the past week.

ELEVATOR KILLS.

Operator Caught Between Door and Second Floor Landing.

Joseph White, colored, 38 years old, an elevator operator at the Lucerne apartment, 1539 I street northwest, Washington, died at the Emergency Hospital yesterday afternoon, from injuries received earlier in the day when he was caught between the door of the elevator and the second floor landing.

According to witnesses, a colored woman, employed as a maid by a family residing in the apartment, had stepped into the elevator and started the car herself. White, it is stated, tried to leap into the car to stop it, when he was caught between the floor and the floor, crushing his chest.

Mayor Rebukes Disloyalty.

Milwaukee, Wis., Jan. 5. —This city's socialist mayor, Daniel A. Hoan, has thrown a bombshell into the socialist central committee here by repudiating the action of the party in adopting what is commonly known as the St. Louis platform.

Mayor Hoan declares he is unable to subscribe to the platform of the party, and remain loyal to the Constitution of the United States. He further agrees to resign his office if asked to do so.

The central committee will meet shortly to consider the mayor's communication. The mayor's subsequent action will depend on the action of the committee.

About half-past three o'clock this morning the fire department was summoned to 500 South Alfred street. No fire was found by those who responded.

ALLIES TO STATE CASE

Turkey Willing to Grant Russia Free Passage Through the Dardanelles During Remainder of War.

More than a month ago dispatches from London reported sentiment crystallizing there for a repledging of war aims by the allies, in a single statement which would be subscribed to by all.

It was stated that such a joint declaration was favored by President Wilson as a move which would make entirely clear to all the world, and particularly to democratic Russia, exactly where the allies stood.

Since that time cable dispatches have passed between the allies, in perfecting a new statement of war aims.

The restatement of war aims by the allies would be expected to have a strong heartening effect on Russia.

That was the general thought in diplomatic quarters today, though American officials shed little light on what is proceeding beneath the surface.

Those believing the statement would be hurried argued that, if specific, and so framed as to expose Germany's duplicity at Brest-Litovsk, it would stimulate the Russians not to resume dickering with the Teutons. And, while doing this, it would put the final crimp in Germanys' desperate effort to force peace on a world unwilling to yield until it is safe from future Teuton aggressions.

As for recognition of the Bolsheviki government as a "de facto" regime, there appeared more sympathy toward such a step than at any time since Lenine and Trotzky assumed power.

Petrograd, Jan. 5.—Turkey is willing to grant Russia free passage through the Dardanelles during the remainder of the war, but holds all her frontiers should be restored to their status of before the war, according to the text of the Ottoman peace terms, as announced today from Brest-Litovsk.

The Turkish delegates outlined their terms as follows:

Turkish frontiers to be the same as before the war.

Agreement by a convention as to future sea trade.

Individual war loses to be refunded.

Territorial safety and development of Persia to be guaranteed on the basis of entire independence.

Free passage for Russia through the Dardanelles and the Bosphorus during the war.

Limited mobilization for national defense.

KAISER MAY FACE REVOLT.

Bolsheviki Ambassador Predicts German Troops Will Join Russians.

London, Jan. 5.—Maxim Litvinoff who has been appointed Bolsheviki ambassador to Great Britain, and who said Thursday that he probably would return to Petrograd, has decided to remain in London pending the receipt of his instructions.

His photograph is printed prominently in the newspapers.

It shows the highly intelligent face of a wellborn and educated man.

He is described as being broad-minded, and it is said that he is attached to English institutions in England, where he has lived for a decade.

M. Litvinoff says "It is grossly mischievous to represent the Bolsheviki as pro-German, anti-ally or as mere pacifists. They realize as clearly as anyone that Kaiserism and Junkerdom are the greatest obstacles to the self-emancipation of the international proletariat, but have discovered that Prussia is not the only soil for the congenital growth of noxious plants.

"They oppose replacing Prussian militarism by Russian, French or English militarism."

M. Litvinoff declared his emphatic belief that by the present negotiations and propaganda among the German soldiers in the East, Trotzky and Lenine are contributing to the downfall of Kaiserism more effectually than the allies fighting in the West. He concludes:

"I am sanguine enough to imagine that the Russian and German armies on the Eastern front some day will march together against the common foe of the world's proletariat in Germany itself and perhaps in other countries, too."

NEGOTIATIONS CEASE

Germany and Russia at Variance Concerning Terms, it is Alleged. Allies to Outline Peace Terms.

London, Jan. 5.—Germany's peace delegation, headed by Foreign Minister Dr. von Kuehlmann, was back at Brest-Litovsk yesterday when Trotzky's "ultimatum" to the Allies expired.

Up to late yesterday evening it was by no means certain that the Russian delegates, too, had returned to resume the peace parleys. Trotzky at last accounts, regarded this as unlikely.

If they did, however, it was merely to hear whether Germany has changed her mind regarding the evacuation of Poland, Lithuania, Courland and parts of Livonia and Esthonia. Only a complete back down on this issue will satisfy the Russians.

Whether such a backdown was authorized by the Bundesrath and the Crown Council is the question upon which hinges the fate of the whole peace conference.

The Lenine government's determined attitude toward the German camouflaged annexation clause has made such a profound impression both in Great Britain and France, that advisability of allied recognition of and alignment with the Bolsheviki stood foremost in international speculation last night.

Disclosure of details of the Brest-Litovsk peace negotiations makes it clear that Germany assumed a domineering attitude, while Austria, Bulgaria and Turkey were very conciliatory and disagreed with the German position.

There were differences also among the German delegates. Foreign Minister von Kuehlmann and Gen. Hoffman clashed openly during the general meetings. Germany posed constantly as a conqueror, while her three allies showed eagerness for peace and a disposition to compromise.

Amsterdam, Jan. 5.—A clear cut statement by the allies definitely outlining their peace terms will be issued within 24 hours, if a forecast from a high and authoritative quarter made last night materializes.

The allies, it was learned late last night, are determined to forestall any diplomatic attack the central powers may be planning to institute at Brest-Litovsk.

The restatement of allied aims will be, it is declared, a full reply to the German statements to be made at Brest-Litovsk. It may at the same time be a forerunner to allied recognition of the Bolsheviki.

COAL FOR NEW YORK.

Icebreakers Convoy 50,000 Tons. Buildings Are Cold.

New York, Jan. 5.—Preceded by powerful railroad tugs acting as icebreakers, a fleet of ocean-going barges was on its way to New York from New Jersey tidewater points last night with 50,000 tons of coal. It was expected half of this supply would be unloaded before morning.

It was not until late last night when they were informed that the ice jam had been broken that fuel administrators and transportation officials felt they could safely suspend for a few hours their efforts to bring relief to the sorely stricken city. If the barges arrive without mishap they will be just in time to prevent the closing for lack of fuel of many large office buildings, hotels and apartment houses.

Phila., Jan. 5.—Pennsylvania, which produces 47 per cent of the coal output of the United States, yesterday appealed through its Federal fuel administrator to the government to save it further suffering due to the scarcity of coal to the consumers.

Cleopatra Suppressed.

New York, Jan. 5.—Theda Bara, vampire movie actress, says Major Funkhouser, movie censor, slandered her $100,000 worth in suppressing the film "Cleopatra" here.

REPRESENTATIVE CARLIN.

The Loudoun Times, in its last issue, has the following complimentary reference to Representative Charles C. Carlin of this city, in which it calls attention to some of the many measures which he has been instrumental in having carried out for the benefit of his constituents in the Eighth congressional district as well as the country at large:

Men are like money and we must take them for their value and the value of each lies in their powers of obtainment as well as in their powers of attainment. Let us look for a brief moment and see what our present congressman, the Hon. C. C. Carlin, has done for his country and his district. He drafted the Anti-Trust law which was a part of President Wilson's program. He was the author of the provision which exempted the farmers and their argicultural associations from the operation of the Sherman law. He drafted the bill creating the Federal Trade Commission. He drafted the report of the National Prohibition Amendment and made the report to Congress. He secured the passage of the bill whereby our Government paid the claims of all churches damaged by Federal troops during the Civil War, and through this bill nearly every church in his district benefited. He brought a shipbuilding plant to Alexandria in which $34,000,000 will be invested and thousands of men in his district will be given employment at good wages. Through his efforts is the Aqueduct Bridge, linking the District of Columbia with Virginia, now being built. To his ntiring exertions is due the building of the highway from Washington to Mt. Vernon. He has shown the people of his district his powers of attainment and his powers of obtainment. He has proven his worth to his President, his party, his conferres and his constituents. Let us there're, one and all, recognize his value.

COMPLAIN OF COLD CARS.

It was stated yesterday that considerable discomfort is experienced by Alexandrians whose occupations take them to Washington daily from the lack of heat in the electric cars. During the coal shortage it was deemed necessary by the railway officials to "cut out" heat in the cars in order to conserve fuel, but, unfortunately, a blizzard followed, which has occasioned great inconvenience to all whose business or pleasure carries them to the capital city. While not disposed to excoriate the company, passengers sincerely hope that more satisfactory conditions may soon be brought about.

Complaints are louder from passengers on other branches of the road, and attention was yesterday called to the fact that early Thursday morning some passengers on a Falls church car burned newspapers in order to obtain some relief from the intense cold, the mercury at that time being near zero.

Complaints have been made to the State Corporation Commission that the Washington and Old Dominion Railway Company, which operates in Virginia from the Potomac River to Bluemont, beyond Leesburg, was running electric cars so poorly heated that children and others were sffering severely. It was reported to the commission that the cars were equipped for electrical heating, but that the heat was not at or near the bottom, and that even the running of the cars failed to keep the electrically supplied heat anyways near to a comfortable degree.

The complaint was from Mayor Charles B. Lowenbach, of Leesburg and was confirmed by Colonel Elijah White. It stated that the company carried two cars together, dropping off one along the line to be picked up cold on the return trip. The commission wired the company that if the complaints were true as stated that it was not living up to its obligation as a public service corporation and that steps must be taken at once to remedy the situation.

PUT GERMANY IN A BOX.

Reported "gagging" by the Russian delegates to the Brest-Litovsk peace conference at the terms sought to be imposed by the Austro-German representatives indicates that Lenine cannot wholly control the action of the Russian members says the Richmond Journal. The demand made by the central powers that their troops should not be withdrawn from Poland, Lithuania and Courland was too much for the Bolsheviki delegates who scented the annexation game in such a program and declared it to be inacceptable. They point out what is obvious, that it would be impossible for the occupied provinces named freely to choose their own political destiny until every German soldier had been recalled. The Austro-Germans have asked for time to consult their home offices in regard to the objections advanced by Russia and a four-day adjournment has been taken.

Advices from Petrograd are to the effect that if, after the resumption of negotiations, the Germans insist upon continuing their troops on Russian soil, the conference will come to an abrupt conclusion, the Bolsheviki withdrawing, in which event, it is said, efforts to conclude peace will be made with the representatives of the people—the Socialists of Germany.

If Germany is really anxious to conclude peace terms with Russia, the retirement of her troops must be conceded; the imperial government dare not let the question go to the German Socialists for a decision that were fraught with too great a menace to the established order. A compromise will, doubtless, be offered, but if the Bolsheviki stand pat they have the whip hand. The kaiser cannot afford to risk a revolution, which a refusal of the Russian stipulation might engender.

Fight Fair.

Some wise poet wrote this. It is good to read—and practice:

It is better to lose with a conscience clear
Than to win by a trick unfair;
It is better to fail and to know you've been,
Whatever the prize was, square,
Than to claim the joy of a far-off goal
And the cheers of the standers-by,
And to know down deep in your inmost soul
A cheat you must live and die.

Who wins by trick may take the prize,
And at first he may think it sweet,
But many a day in the future lies
When he'll wish he had met defeat,
For the man who lost shall be glad at heart
And walk with his head up high,
While his conqueror knows he must play the part
Of a cheat and a living lie.

The prize seems fair when the fight is on,
But, save it is truly won,
You will hate the thing when the crowds are gone,
For it stands for a false deed done
And it's better you never should reach your goal
Than ever success to buy
At the price of knowing down in your soul
That your glory is all a lie.

Success!

There are no "lifts" in the House of Success,
But the stairs are long and steep,
And the man who would climb
To the top, in his time,
Before he dare walk, must creep.

Of carpets, there're none in the House of Success,
But the floors are hard and bare,
And you're likely to trip
And slide and slip,
In the pitfalls here and there.

There are no lounges or easy chairs,
Nor places to rest your spine,
But after you've won
To the roof—there's the sun,
And, ah! but the view it is fine.

—The Optimist.

The Way of Usefulness.

He is the most expensive man connected with the company," said Mr. Cyrus H. K. Curtis, publisher of the Saturday Evening Post, speaking of an employee. "He won't spend anything."

In one of Irving Bacheller's books, when the boy, Bart Daymes, asks why the needle points toward the north star, Uncle Peabody says:

"That's a secret. I wouldn't wonder if the gate o' heaven was up there. Maybe it's a light in God's winder, who knows? I kind o' mistrust the direction we're all goin' in."

And then the boy asks: "Do folks take compasses with them when they die?"

The old man answered: "No, they don't need them then. Everybody has a kind o' compass in his own heart. It shows us the way to be useful, and I guess the way o' usefulness is the way to heaven every time."

Why Mr. Schwab Works.

How many men of your acquaintance are working solely for the money, but why do they want the money?

Not long ago an author asked many of the leading business men of the United States why they were in business. Almost invariably their answer was "To make money." He then followed up with a second question, "But why do you want to make money? The great majority replied that they wanted money in order that they might serve their fellowmen.

Now we find that Mr. Charles Schwab has answered this same question. When some one asked him why he worked, he made this answer:

"Why do I work? What do I work for? I have more money than I can spend. I have no children, nobody to leave it to. My wife is rich enough in her own right. She does not need it. I do not need it. I work just for the pleasure I find in work, the satisfaction there is in developing things, in creating. Also, the associations business begets. The man who does not work for the love of work but only for money is not likely to make money nor to find much fun in life."

COAL CAR RAIDED.

Sufferers Forced to Steal the Precious Fuel in Philadelphia.

Philadelphia, Pa., Jan. 5.—In Philadelphia yesterday an actual coal famine existed. So serious has the situation become, with the failure of expected coal shipments to reach here, that theaters, saloons, and other places not regarded as wartime necessities are expected to be closed this week by the Philadelphia fuel committee. With forty-three public schools and an increased number of industrial plants shut down, and with suffering widespread throughout the city drastic action to bring relief is promised by the committee.

Unable to obtain coal, thousands of persons are storming the coal yards and many others are swarming into the offices of the fuel committee with pitiful tales of sick children. A crowd of 2,000 persons from the foreign section, made desperate by their suffering, raided a coal car on Washington avenue and stole many tons of the precious fuel. Similar scenes were enacted in West Philadelphia.

16 HURT IN WRECK

Government Employes Injured Near Portlock Concentration Depot.

Norfolk, Va., Jan. 5.—Sixteen men, a majority of whom were government employes, were injured when an engine with two coaches carrying government forces to the concentration depot at Portlock, Va., ran into a light engine standing on the main line of the Norfolk and Western in the Portlock yard yesterday morning.

All of the injured were brought to Norfolk, and were taken to St. Vincent's Hospital. While it is said that none of the men was fatally hurt, it is believed that E. E. Parker, of Berkley Ward, was internally injured.

When entering the yards at Portlock the engine in charge of Engineer A. K. Fentress smashed into the engine that was standing on the main line. The passengers were thrown to the floor. Noses were broken, heads and faces badly bruised, and some were injured about the body.

IMPORTANT NOTICE TO CONSUMERS OF COAL

At the direction of the Fuel Administrator for Virginia, an order has been issued to the retail dealers of coal in this city and county, not to deliver coal to household consumers, in quantities in excess of two tons and then only when the consumer's supply on hand is two tons or less. This will make the maximum quantity of four tons at any one time. To larger consumers, deliveries are not to be made in quantities greater than the actual needs of the consumers for fifteen days, and then only when the consumer's supply on hand is less than their requirements for fifteen days. This will make the maximum quantity held by larger consumers at any one time. only sufficient for their actual needs for thirty days or less. Industries buying coal in carload lots must obtain special permit from the Fuel Administrator.

To make this order effective, and to relieve the dealer of the responsibility and difficulty of ascertaining the supply any consumer has on hand, it is arranged that an affidavit be furnished by the purchasers of coal in excess of one-half ton (this affidavit can be made by any member of the family over sixteen years of age.) These forms for making the affidavits will be in the hands of the dealers, and notaries and the affidavits will be taken without charge, by any one of the following notaries public, who have offered their services to aid the Commission in this work:

Miss Gladys M. Brooks, room 1, Alexandria National bank building, W. C. Drury, 107 south Royal street; J. T. Burke, Burke and Herbert; Miss Cora Duffey, Office, Clerk of Court; Courtland H. NEWS OF THE OLD DOMINION

DOCTOR DENIES CRIME.

Too Crippled to Carry Body, Jury is Told by Chamberlain.

Goochland, Va., Jan. 5.—Dr. Asa W. Chamberlain yesterday took the stand in his own defense and for three hours bared his relations with his brother, Judge Albert P. Chamberlain, whom he is alleged to have killed late in October. His testimony was not completed when court adjourned at 8 o'clock last night.

Dr. Chamberlain pictured his brother as an ingrate. He testified that he had time and again befriended Judge Chamberlain, financially and otherwise, not only in Virginia and in Iowa, but in Florida. The physician, according to his own story, was tried and convicted in Des Moines, Iowa, of violating the liquor law. He declared that the prosecuting attorney of that city brought out unpleasant facts concerning himself which could not have otherwise been made known except by his brother.

He swore that the last he saw of his brother was on the afternoon of October 22, when Judge Chamberlain told him he was going to Cheyenne, Wyo. To refute the contention of the prosecution that Dr. Chamberlain had carried his brother to an upper room of his farmhouse home and there butchered him, the witness displayed a crippled foot and leg, declaring it to be a physical impossibility for him to have performed such an act.

Mrs. Elsie W. Chamberlain, 19-year-old wife of the accused, was the first witness for the defense. She declared that she was aware of no trouble between the brothers.

Dr. L. K. Leake, coroner of Goochland county, told how the flesh had been scrapped from the back of the head, how the limbs were severed at the points, how the body was severed from its other parts and how smoothly incisions had been made in accomplishing this work.

John Sims, a negro, told of finding the torso while digging in Dr. Chamberlain's garden. The torso was buried on a spot where an icehouse formerly stood. Samuel Bates, another negro, who was with Sims at the time of the finding of the torso, corroborated the testimony.

HIGH DIVORCE RECORD.

For Every Eight Marriage Licenses in Lynchburg One Decree is Granted.

Lynchburg, Jan. 5.—For each 7.9 marriage licenses issued in Lynchburg during the year 1917, there was a divorce granted in the Circuit or Corporation Courts, for the records of the two courts for the year show there were sixty-one divorces and 443 licenses issued.

During the year decrees for fifty-one divorces were signed in the Circuit Court by Judge Barksdale, and ten in the Corporation Court by Judge Christian.

While there is no way to ascertain accurately, it is believed that full three-fourths of the divorces secured in the city last year were by negroes, some of which were partial separations fo rdesertion, but the majority were absolute in their effect.

SHOT BY POLICEMAN.

Youth, Dies in Hospital One Hour After Being Wounded by Police Officer.

Richmond, Jan. 5.—I. G. Cousins, a patrolman, fatally wounded Harry Cayle, a fifteen-year-old boy, early Thursday night, when the lad did not halt in his flight after having entered the chicken pen of H. M. Wingfield. The bullet entered the boy's back just below the shoulder blade, and came out near the breast-bone. When the fleeing youth fell he was picked up by Mr. Wingfield and sent at once to the Virginia Hospital, where he died at 7 o'clock.

Following a complaint by Mr. Wingfield that he was missing chickens, the officer stationed himself near the pen to await the thief. In a little while he saw some one enter the coop, and waited. The Cayle boy came out of the pen, and Patrolman Cousins called to him to stop. He called a second time, and when the boy did not stop raised his gun and fired. Mr. Wingfield, who reached the boy, who lay on the ground, before the officer, stated that Mr. Cousins was amazed when he realized that the bullet had struck the lad. There were only two chickens in the coop which the boy entered, and in the dusk it was impossible to discern whether he carried these or not.

The officer was bailed after a technical charge had been lodged against him. Judge Richardson, of the Hustings Court, having made the necessary order.

OLD DO.

THREE DEAD AT NORFOLK.

Two Injured Firemen Succumb—Arrest at Buffalo.

Norfolk, Va., Jan. 5.—Judge Martin W. Williams, Federal inspector of explosives, arrived in Norfolk yesterday afternoon from Anniston, Ala., to institute an investigation into the origin of the fires which swept lower Granby street Tuesday. He came here on telegraphic orders from Washington. He immediately held conference with Major C. G. Kizer, chief of police.

Norfolk's death toll as a result of Tuesday's fire was increased to three by the death of Fireman W. H. Nelson last night, whose skull was crushed by the falling of a wall of the Lenox building. Fireman John R. West died earlier in the day.

Buffalo, Jan. 5.—Suspected of having been implicated in the arson plot which resulted in the destructive fire at Norfolk, Va., Wednesday, a German, giving his name as Richard R. Baton, 32, member of the crew of an interned German liner, was arrested late yesterday by Department of Justice officials. Maps of Norfolk were in his possession.

ICE IN JAMES RIVER.

Will Use Dynamite and Powerful Tugboats to Open Channel.

Richmond, Jan. 5.—Heroic measures will be undertaken by the city and the Old Dominion Steamship Company to break a channel through the ice in James River and reopen freight traffic, which has been at a standstill for the past four days. If sufficiently powerful tugs cannot be obtained, dynamite will be used to break away the heavy ice flows in the lower river. Not since the great ice gorge of February, 1899, has there been so serious an interruption of river transportation, and for the first time since the steamers Berkley and Brandon were put into commission they have been noble to force their way through the heavily forming ice.

MARRIAGES IN VIRGINIA.

Two Counties in Which no Negroes Wedded Within Year.

Marriages in Virginia for the past year ending December 31, 1916, were 21,524 of which 13,134 were white and 8,390 colored. Two Indian couples were wedded. In two counties—Buchanan and Dickenson—there were no marriages of colored persons, those counties having no colored residents. No report what ever was received from the clerk of Northumberland. Charles City county had only thirty-two marriages in the year. Wise county had the largest number, 3030. Richmond city had 2,286, with Williamsburg the lowest for "cities," 21.

CITIES ASK RELIEF.

Segregation System Prospers State at Expense of Municipalities.

Richmond, Jan. 5. —Confronted with substantial losses in revenues through the operation of the partial segregation system of taxation, which became effective in Virginia in 1917, representatives of the leading cities and towns of the state have determined to urge at the coming session of the General Assembly such legislation as will grant the necessary relief to municipalities, through the release to them of certain subjects of taxation. This action resulted from the serious situation confronting the cities, whose operating costs have been steadily advancing while revenues remained stationary and decreased under the new method of taxation.

FUEL SUPPLY NEARS END.

Lynchburg Electric and Gas Plant May Have to Shut Down Within a Week.

Lynchburg, Va., Jan. 5.—The Lynchburg Traction and Light Company has given notice here that, unless the State Fuel Adiminstration can get it coal within a week the electric and gas plant here will have to close.

The present supply of coal will last seven days, and the company has none rolling. Until a month ago the company had no trouble as to fuel, but ten days or two weeks ago appealed to the authorities for help.

DO YOU KNOW?

Which Star in Our Flag Represents Your State?

Did you know that every star in our American flag has its own individual and particular State which it represents and that its placement on the square of blue is carefully and definitely regulated by law and executive order?

In 1912, on the 26th day of October, the last executive order concerning the flag was made and it provided for the specific arrangement of the stars. They were to be arranged in six horizontal rows of eight stars each. Starting in the upper left hand corner and placing each row from left to right, the star corresponding to each State is named in the order of the States' ratification of the Constitution.

Thus star No. 1, in the upper left hand corner, is for Delaware. Star No. 48, in the lower right hand corner, is for Arizona.

The following list will show you at a glance exactly which star is yours:

First row— No. 1, Delaware; 2, Pennsylvania; 3, New Jersey; 4, Georgia; 5, Connecticut; 6, Massachusetts; 7, Maryland; 8, South Carolina.

Second row—No. 9, New Hampshire; 10, Virginia; 11, New York; 12, North Carolina; 13, Rhode Island; 14, Vermont; 15, Kentucky; 16, Tennessee.

Third row—No. 17, Ohio; 18, Louisiana; 19, Indiana; 20, Mississippi; 21, Illinois; 22, Alabama; 23, Maine; 24, Missouri.

Fourth row—No. 25, Arkansas; 26, Michigan; 27, Florida; 28, Texas; 29, Iowa; 30, Wisconsin; 31, California; 32, Minnesota.

Fifth row—No. 33, Oregon; 34, Kansas; 35, West Virginia; 36, Nevada; 37, Nebraska; 38, Colorado; 39, South Dakota; 40, North Dakota.

Sixth row—No. 41, Montana; 42, Washington; 43, Idaho; 44, Wyoming; 45, Utah; 46, Oklahoma; 47, New Mexico; 48, Arizona.

Why Shoes Wear Out.

The average step is 26 inches. This means 2,437 steps to the mile, or 12,185 in a five-mile day. A person weighng 160 pounds, in a day has pounded into his shoes 974 tons and 1600 pounds of meat, bone and troubles, and all this he carries above his shoes. Men buy three pairs of shoes a year. A steel hammer weighing 160 pounds coming down at that rate for four months would have to be renewed each day and would have to be fished out of the deepest hole in the earth at the end of four months.

NEGRO GETS EIGHT MONTHS.

Had Seized Young Woman in Winchester Two Days Ago.

Winchester, Va., Jan. 5.—Clayton Peterson, a powerful negro coal-cart driver of low mentality, was on Thursday afternoon sentenced to eight months at hard labor for attacking Mrs. Edith Nalls, an attractive young mill operative, while on her way to work early Thursday morning. Peterson grabbed her with both hands around her body and held her in a vise-like grip. He attempted to drag her into a nearby alley, when she struggled with her assailant, but seeing some one approaching the man fled. Peterson first denied his guilt, but later confessed. Other young women declared he was the same man who recently attacked them while on their way to work, but shrinking from notoriety they had made no complaint to police.

A la Laundry.

A colored Baptist was exhorting. "Now, breddern and sisters, come up to de altar and have yo' sins washed away."

All came but one man.

"Why, Brudder Jones, don't yo' want yo' sins washed away?"

"I done had my sins washed away."

"Yo' has? Where yo' had yo' sins washed away?"

"Ober at de Methodist Church."

"Ah, Brudder Jones, yo' ain't been washed; yo' jes' been dry cleaned."

CASE AFTER CASE

Plenty More Like This in Alexandria.

Scores of Alexandria people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

William L. Nalls, 534 S. Patrick St., Alexandria, says: "My back ached all the time and the pains through my loins were so severe that I thought they would kill me. My kidneys were congested and the kidney secretions caused me much annoyance. Nothing did me any good until I got Doan's Kidney Pills at C. W. Summer's Drug Store. I was relieved of that misery in my back after I had taken a few doses. Since using three boxes of Doan's my kidneys have been in good condition and my back hasn't caused me any trouble."

simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Nalls had. Foster-Milburn Co., Props., Buffalo, N. Y.

A BEVERAGE

Cold Weather Notice

Keep in mind the fact that Bevo, being a soft drink, will freeze at 32° Fahrenheit — just like any other non-alcoholic beverage. Be careful about this, as freezing affects the rich fullness of that delightful Bevo flavor which goes so particularly well with a meal or a bite to eat.

If Bevo were merely a summer beverage this warning might not be so timely — but, as all who drink it know —

Bevo is an all-year-'round drink

Everybody enjoys it for more than just its thirst-quenching qualities — the pleasure it gives comes from its flavor, purity and wholesome nutritiousness — the enjoyment of these qualities is independent of time or season.

To get full pleasure out of Dutch lunches, Welsh rarebits, oysters, clams, lobsters, sausage, cheese and many other such delicious edibles, Bevo should be included.

You will find Bevo at inns, cafeterias, restaurants, groceries, department and drug stores, soda fountains, dining cars, steamships, canteens, soldiers' homes, navy, and other places where refreshing soft drink beverages are sold.

Your grocer will supply you by the case. Demand the genuine—have the bottle opened in front of you—see that the seal is unbroken covering the crown top and see that the crown top bears the Fox.

SEE THAT CROWN BEARS THIS FOX — CAUTION — SEE THAT THIS SEAL IS INTACT

Bevo is sold in bottles only, and is bottled exclusively by
